***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

none of the prior art of record discloses or suggests a liquid dispensing device comprising in part the combination of the cup with cavity, lid, and plunger as claimed. Burchett et al. (6,200,295) and Botts (6,126,679) in combination teach all elements except for a plunger that always remains above the bottom of the cup thus allowing the cup to be supported by a horizontal surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Marsden et al. (2005/0092754) disclose a sipper cup with a medicine dispenser, but lacks a plunger.
